Project: Improvement and Up-gradation to Four Lane with paved shoulders configuration from Existing Km 0.000 to Km 39.500 (Design km 0.00 to km 40.342 & 0.50 km in UP portion bridge approach, design length 40.842 km) of NH-227A (near Mehrauna Ghat (UP-Bihar Border to Siwan) of Ram janki Marg in the state of Bihar on HAM mode.

Subject: Review and Approval of Design & Drawings for New Jersey Barrier and Elastomeric Bearings.

pReference:

1. Concessionaire Letter No.: - CDS-MDSHPL/MGS/25-26/20008 dated: 21.01.2026

2. Concessionaire Letter No.: - CDS/M-S NH227A/QA/QC/2026-27/281 dated: 13.03.2026

With reference to the above-mentioned subject and the cited reference letter, we have received the design calculations and drawings for the following items submitted by the Concessionaire for review and approval:

1. Design and drawings of the New Jersey Barrier for the Project Highway.
2. Design and drawings of Elastomeric Bearings.

The submitted designs, drawings, and design calculations have been reviewed and found to be in conformity with the relevant IRC Codes, MoRTH Specifications, approved GADs, and the provisions of the Concession Agreement. Accordingly, the same are hereby approved for implementation, subject to strict compliance with the following conditions during execution:

1. The Concessionaire shall ensure that all works are executed strictly as per the approved drawings, design calculations, relevant IRC codes, and MoRTH specifications.
2. All materials proposed for use shall conform to the approved specifications and shall be supported with valid test certificates/reports from approved laboratories prior to
