Sub: Consultancy services of Independent Engineer for Upgradation from single lane/two lane to 2 lane with PS from Ch. Km. 0/00 to 56/620 (Design Ch.0/000 to 56/115) from Khokhra Gujarat Border-Vijaynagar-Antarsuba-Mathasur road on NH-58 in State of Gujarat on Hybrid Annuity Mode (HAM) **Regarding Source Approval of Credential and Drawing of Elastomeric Anchored Bearing for Major Bridge at Ch. 32+152 km**

Ref.:

1. Concessionaire's letter no. SIKMRPL/HAM/F.75/Camp-40/2025-26, dated 28.02.2026

Sir,

In reference to the above-mentioned subject, you have submitted the company profile and drawing of **Polymer Products** for the Elastomeric Anchored Bearing vide letter under ref. (1).

Accordingly, the same has been reviewed and it has been found in order.

Further, the approval of the source is accorded subject to fulfilment of the below-mentioned criteria,

- You are required to schedule the factory visit along with Authority's and IE's representative for witness testing of the bearing as per the relevant codal provisions before the procurement at project site.
- Submission of Manufacturer Test Certificate (MTC) along with the Third-Party Test report from a NABL accredited Laboratory.
- Field test of Individual batch/ lots to be carried out before allowing the material/ product to be used
- Only fresh material/ products from the source shall be supplied at site.
- Any material/ product not meeting out the prescribed standards should not be put to use.
- The records of all material/ product should compulsorily be kept as a separate record with the concerned authorities before use of material/ product in the project.
- You are required to kindly verify the pedestal size according to bearing size at site prior to the execution of work in the presence of IE's site team.

The material from the afore-said source can be incorporated in the project work subject to the testing from a NABL accredited laboratory in the witness of IE's representative and adherence to conformity in accordance with relevant codal provisions.
